

Bereket Getaw Haile

Data Scientist & AI Developer

Addis Ababa, Ethiopia github.com/Bereket613 linkedin.com/in/bereket-getaw-904857323

PROFESSIONAL SUMMARY

Web developer and data science student focused on machine learning and AI development in Python. Hands-on experience with data analysis, prediction models, recommendation systems, and NLP, plus frontend development in React. Comfortable taking projects from data collection and exploration through to trained models and usable applications.

TECHNICAL SKILLS

Programming

Python, JavaScript, SQL, React, HTML/CSS

Data Science

Pandas, NumPy, Matplotlib, Seaborn, data visualization

Machine Learning / AI

Scikit-learn, TensorFlow (beginner), NLP, TF-IDF, classification, recommendation systems

Web & Tools

React, Node.js, Express, PostgreSQL, Git, Tailwind CSS

EXPERIENCE

Member & Contributor — Techtonic Tribe Tech Club

Debre Berhan University

Tech meetups, workshops, and collaborative coding sessions

- Contributed to hackathons and group projects focused on frontend development with HTML, CSS, JavaScript, and React.
- Worked on Python scripting and mini automation tasks.
- Earned certificates of recognition for contributions across frontend, Python, and collaborative projects.

PROJECTS

Book Recommendation System

Python · K-Nearest Neighbors

Collaborative filtering model that recommends books based on user similarity, built with scikit-learn.

Diabetes Prediction

Python · Machine Learning

Supervised classification model predicting diabetes risk from clinical features.

AI Chatbot (NLP / TF-IDF)

Python · NLP

Intent-classification chatbot using TF-IDF features to match user questions with responses.

EDH (2016) Data Analysis

Python · Data Visualization

Exploratory and explanatory analysis of the 2016 EDH dataset with Pandas and visualization libraries.

Bank Management System

Python

Desktop application for account management, transactions, and record keeping.

EDUCATION

BSc — Data Science

In progress

Debre Berhan University, Ethiopia

CERTIFICATIONS

- Certificates of recognition — Techtonic Tribe Tech Club (frontend development, Python, and group project contributions).
